

SIMPLE FPS CONTROLLER

I wanted to thank you for downloading this asset and give you some more info about it.

LICENSE:

The license is [Attribution 3.0](#). Attribution 3.0 gives you the opportunity to do anything with this asset – you can change it, use it for any kind of purposes. However there are two exceptions – you **must** add me to the credits of your project and you must **not** add additional restrictions.

BUGS:

If you find any bugs, you want to ask something or you have idea, just contact me using the contacts beneath.

TESTS AND PERFORMANCE:

The asset was made in URP(Universal Rendering Pipeline)

I tested the asset on this configuration:

GPU: NVidia GTX 750Ti

CPU: Intel Core i5-6400

RAM: 16GB

Everything went smoothly!

CREDITS:

- [Modern Weapons Pack](#)
- [Gridbox Prototype Materials](#)
 - [Classic Skybox](#)
- [Music: A Magical Journey Through Space - Leonell Cassio \[Vlog No Copyright Music\]](#)
